Retirement Living

Thursday 19 May 2016
Brookwater Golf and Country Club

The inaugural shifting health – by design symposium will establish a new baseline for longitudinal studies to underpin future think tank events. The symposium seeks to delve into questions on health from a holistic perspective.

- How do we improve the health system by integrating the seven dimensions of wellness: social, emotional, spiritual, environmental, occupational, intellectual and physical wellness?
- How do we shift the focus of health care from illness to wellness through co-created integration?

Join us to explore the possibility of a better health system.

<p>Engage In facilitated breakout sessions</p>	<p>Expertise Hear about best practices</p>
<p>Get insight From industry experts and thought leaders</p>	<p>Co-create Contribute to conversation on the future of health care</p>
<p>Learn About research, public and private hospitals and the aged care sector</p>	<p>Understand Frameworks for whole of life care with the consumer at the centre</p>
